Notice-please save this list, you may order from it at any time in the future, if prices change, we will notify you.

WILDFLOWERS, PERENNIALS, TREES,  
SHRUBS, HOUSEPLANTS

BOG PLANTS, VINES, ROSES, SEED,  
WILD FRUIT, GROUND COVERS

We send special planting directions with each different kind of plant, to make planting easy for you, if you do not know which plants are best for your location, ask us about it, we are glad to serve you in this.

Plant names preceded by an asterisk, as \*Arabis, may be used in rock gardens. The numbers after plant names in parentheses, as Dianthus (8), found in this list, give the height of the matured plant in inches or feet, but when planted in poor soil, will grow lower, higher in rich.

#### HARDY AND EASY TO GROW WILD VIOLETS

Tall Yellow (14) Grows in sun or shade, has black veinings and soft green leaves, makes nice colonies by seeding self. 30¢ ea., 3-70¢, doz 2.00  
Large Blue (7) Self-sowing, beautiful blue flowers in spring, will grow in sun or shade. 35¢ ea., 3-75¢, doz. 2.25  
Large Blue Multiplier (8) Flowers nearly as large as last above, makes large clumps, for shade or part shade. 35¢ ea. 3-75¢, doz. 2.25  
Tall White (16) Flowers with blue veins, thrives in sun or shade and likes rich soil, makes large clumps. 35¢ ea., 3-75¢, doz. 2.25  
Small Blue (4) Good in shady rock garden, 30¢ ea. 3-70¢, doz. 1.90  
Small Fragrant White (4) Spreads both by runners and seed, making large colonies in shade or sun and in rich or poor soil. Does not spread out of control or get weedy, very fragrant. 3 for 75¢. doz. 1.95, 100-9.50

Beautiful, hardy and easy to grow Ferns for shade and rich soil.

Cinnamon Fern (4') Easy to grow, beautiful fronds, and brown spore fronds.

Interrupted Fern (4') for shade or part sun and moist or dry soil.

Ostrich Fern (4') Grows best in rich soil and part to full shade.

Lady Fern (36) for rich soil and shade, many beautiful fronds.

Florist Fern, Evergreen, (24) Stays green all year, loves shade and rich soil or leaf-mould mixed in, fine for flower arrangements.

Maidenhair Fern (16) A beautiful fern for ordinary soil and part shade.

Rattlesnake Fern (10) Will grow in any rich soil and shade.

Long Beech Fern (12) Best in rich soil and shade, makes large colonies.

Sensitive Fern (8) For any kind of soil in shade or sun, dry or wet.

Polypody Fern (7) Loves to grow on boulders, rock garden, sun or shade.  
Prices of all ferns above, medium size, 50¢ ea., large 1.00 ea. 3-2.50

Aquatic plants that are easy to grow near water, or in it, or in moist soil in shade or part sun, or even in full sun.

Arrowleaf (16) White flowers, arrow leaves, grows from bulbs.

Wild Water Calla Lily (8) Flowers like white Calla followed by red seed will grow floating on water or planted in it, or in wet soil and sun.

Cattail (4') Long ornamental leaves and brown cat tails all winter.

Sweet Flag (24) Acorus calamus. Cone-like seed and sword-shaped leaves.

Blue Flag (30) Iris Versicolor. This wild blue iris makes nice clumps.

Iris pseudacorus (5') Beautiful yellow, for water or ordinary soil.

Marsh Marigold (20) Wide round leaves, golden flowers in early spring.

Pitcher Plant (12) Hollow pitcher-like leaves that hold water and trap insects, for bogs or in pots. All plants above, 65¢ ea. 3-1.75

PAVEK NURSERY WHITE LAKE, WIS.

Page two  
EASY TO GROW WILDFLOWERS AND PLANTS

These flowers do best in sun to part shade. They are hardy and being perennials, will come up year after year.

\*Anemone (9) for any kind of soil in wet or dry, White-30¢ ea. 3-75¢ Great Willow Herb; Firetop-pinkish purple flowers in the reminder of phlox, 3' tall-35¢ ea. 3-75¢

\*Columbine (12) for rich or poor soil, red with yellow heart, fern like leaves-35¢ea. 3-85¢, 6-1.50

\*Gentian; Blue bottle (12) a nice and lovely blue flower for wet or dry ground-75¢ ea. 3-1.75

Wild Geranium, Cranesbill (14) a pinkish-purple or redish flowers, makes large clumps and will grow anyplace-45¢ ea. 3-1.00 6-1.75

Golden Daisy (24) Another very easy to grow plant with large gold fls. 45¢ ea. 3-1.00

\*Liatris; Blazing Star (24) for poor or sandy soil, tall spikes of bluish-purple like huge feathers, very easy-45¢ ea. 3-1.00

Blue Lobelia (30) for wet or dry, makes great spikes of sky-blue in summer-45¢ ea. 3-1.00

Cardinal Flower or Red Lobelia(30) This one in the brightest of all reds or some call it scarlet, for wet or dry rich soil-55¢ ea. 3-1.25

Indian Hemp; Dogbane (20) pretty pink bells, soft leaves, red stem easy - 75¢ ea. 3-1.75

Hieracium auranticum \*(12) or Devil's Paintbrush is very easy in either rich or poor, sandy soil, with the brightest scarlet orange flowers-35¢ ea. 3-75, 10-2.00

White Turtlehead (30) for wet or dry ground, can stand growing in weeds, white shaded to pink for a long time-75¢ ea. 3-1.50

Pink Turtlehead (24) will grow in rich or poor, wet or dry soil, has many pink "Turtleheads" 75¢ ea.

Antennaria is sometimes called Ladie's Tobacco, and again it may be Pussy's Toes, but it is a very Beautiful plant with it's downy white hairs on leaf and stem, and many yellow-centered white flowers that last-35¢ ea. 3-75¢

Most of these can stand much weeds and are therefore very good for naturizing, or growing amongst shrubbery. this includes all plants on this page.

Asclepias tuberosa or Butterfly weed, but if it is a weed, it certainly is an orange beauty, though not always orange, sometimes redish, it is worth while growing, likes sandy soil, but does well in rich-75¢ ea. 3-1.50

Asclepias Syriaca (30) purple and cream, and very showy, likes poor soil- 40¢ ea. 3-1.00

Asclepias incarnata (36) a beautiful violet pink, and will grow in wet or dry ground-45¢ ea. 3-1.10

Phlox divaricata \*(16) a soft blue with violet overcast, makes large clumps in a year or two, and can stand much shade-75¢ ea. 3-1.75

Phlox amoena \*(8) a lovely violet with just a tinge of blue or pink shadows-75¢ ea. 3-1.75

Phlox stolonifera \*(6) a creeper for full sun or half shade, reddish purple-70¢ ea. 3-1.60

Phlox maculata (12) pretty pink flowers on upright stems in summer, 65¢ ea. 3-1.50

Perennial Sunflower (8 ft.) huge masses of gold in summer and fall one plant will often have a 100 blooms, if you love wild birds, be sure to plant a few of these, as often there will be a flock of wild canaries feeding on them, will grow in any soil, roots like dahlias but winter hardy everywhere and easy to grow-3 for 75¢, 6-1.10

Thalictrum (60) large masses of billowing white through cream to violet shades, held high above fern-like foliage, is spectacular in rich, moist soil, but grows anywhere good-65¢ ea. 3-1.75

Silky Aster (16) makes large clumps of silky foliage with hundreds of pink flowers-75¢ Ea.

Tansy (16) whitish to cream flowers above ferny foliage, both are very fragrant when bruised, for any kind of soil-45¢ ea. 3-1.00

Monarda; Bee Balm (36) a fragrant plant with purplish flowers, for poor soil-45¢ ea. 3-1.00

PAVEK NURSERY  
WHITE LAKE, WIS.

All the Wildflowers on this page grow in shade, such as under trees or shrubs, where only filtered sun comes through to the Wildflowers, and in such a spot, they are easy to grow and very lovely. But many of these will also grow in almost full sun if given moist soil.

\*Anemone (4) small purple tinged flowers from very thin fleshy roots, in time, will make clumps of many stems-35¢ ea. 3-80¢, and 10-1.75

Arbutus, Trailing \*(6) Evergreen trailer with the first fragrant flowers of early spring, makes dense matts in sandy, ACID soil, make soil acid by adding acid peat moss or oak bark-75¢ ea. 3-1.75, extra lg. plts. 1.00

Banberry, Red (15) white flowers followed by red berries on red stems, easy and hardy in shady spot-75¢ ea. 3-1.75

Banberry, White (16) white flowers followed by white berries on red stems, held high above foliage, not edible-75¢ ea. 3-1.75

Large Bellwort (12) pretty yellow pendulous flowers for rich soil and shade or half sun, multiplies, making large clumps-50¢ ea. 3-1.25

Mealy Bellwort (8) cream flowers in early spring, spreads underground making large patches of Fairy Bells-40¢ ea. 3-1.00

\*Bishop's Cap (6) tiny white flowers like snowflakes on straight spikes above practically evergreen leaves-25¢ ea. 3-50¢, and 10 for 1.25

Bloodroot (6) large round, lobed leaves and large white flowers, roots will bleed red if scratched or broken-30¢ ea. 3-75¢. and 10-1.75

Clintonia (10) from wide, shiny green leaves springs the 10 inch stem carrying several gold lily flowers, these followed by shiny blue seeds the size of large peas, rich soil, dense shade-45¢ ea. 3-1.00

Crinkleroot (5) pretty white flowers in early spring, roots crinkled & flavor of Horseradish, and very brittle- 20¢ ea. 3-45¢

Dwarf Dogwood \*(6) like a miniature, near evergreen dogwood with white flowers that are quite large, then in fall and through the winter the red or scarlet berries are even more ornamental, this plant will form matts and is good for colonising-35¢ ea. 3-85¢, and 10 for 3.00

\*Fawn Lily; Trout Lily or even Dog Tooth Violet (6) but lovely golden lily-like flowers come in early spring above mottled or spotted wide leaves, then all summer there is nothing, untill the next spring again when these golden gems spring forth anew, and with more vigor year after year, and so easy to grow, fine in the lawn too, or under the shrubs or trees, or the rock garden-45¢ ea. 3-1.00, 10-2.50 and 100 for 22.00

\*Wild Ginger(6) wide, fussy heart-shaped leaves 3 inches in diameter, and maroon wine cups serve as flowers, the thick, fleshy creeping roots have the aroma of fresh ginger, a nice plant if you have shade and leaf-mould or very rich soil for it. 35¢ ea. 3-85¢ and 10-2.00

Ground Pine (7) like a well-shaped miniature "Pine" tree, spreading by underground roots to form small forests of evergreens about 7 inches tall, then long yellow candles that bloom in fall-75¢ ea. 3-1.75

Ground Pine, Smooth-leaved (5) this one is smaller and just like an oriental evergreen, with flattened limbs of dark green, spreads by stems just under the surface to make a real diminutive forest-75¢ ea. 3-1.75

Ground Pine, Running-this evergreen creeper, though not more than 6" high, makes long chains of evergreen much used for decorations, and can be pretty in shade and rich soil-95¢ ea. 3-2.25

Hepatica triloba; Mayflower \*(6) large, evergreen 3-lobed, rounded leaves and in early spring dozens of blooms in white or shades of blue, or even pink to reddish-35¢ ea. 3-85¢ and 10-2.00

Hepatica acutiloba, similar to last, but leaves are more pointed, and the colors are of a greater diversity-35¢ ea. 3-85¢ and 10-2.00

continued from page 3, Wildflowers for shade.

Jack-in-the-Pulpit (30) a curious looking plant that is very easy to grow, the name somewhat serves to describe the flower, in fall a solid red cone of seed, also makes a nice pot or house plant and will bloom several times a year if allowed to dry off after blooming, the tubers grow larger with age, and give offsets that look like large pointed buds, plant these- 35¢ ea. 10 for 2.50 and extra large for pots 75¢ ea.

Joe-Pye-Weed (36) the name says weed, but this is *Eupatorium purpureum*, and is spectacular in bloom of purple overcast with shadows of pink in huge heads of misty fleece, for wet or dry soil, sun or shade-50¢ ea.

*Eupatorium ageratoides* or Mist Flower (48) somewhat more robust than Joe-Pye-Weed, makes large clumps of white mist in clouds on tall stems in late summer- 75¢ ea. 3-1.75

May Apple or Mandrake (16) with huge deeply lobed leaves, white flowers followed by yellow, edible "apples" good for pie, but the stems and leaves are poisonous, or so claimed, grows in sun or shade-75¢ ea.

\*Menthe (6) fragrant, a small plant growing in woods and meadows, used for iced tea, will grow anywhere-35¢ ea. 3-75¢

Trillium-Flower, a trailer for rich soil and half to full shade, this is the most fragrant wildflower of the spring woods, tightly hugging the ground, with evergreen leaves it makes a good ground cover if you can give it acid soil, or make soil acid by adding oak bark, leaves or acid peat moss- 95¢ ea. 3-2.25

*Mertensia* or Virginia Bluebells (24) for rich soil and sun or shade, wet or dry in shade- 60¢ ea. 3-1.50

Parrot Root or Blue Cohosh (16) an interesting plant with white flowers and blue "berries" that hang on all winter-60¢ ea. 3-1.50

Partridge Berry\*(3) a good and hardy, evergreen ground cover for shade and ordinary soil, white, cherry-fragrant flowers and bright red berries all through winter, and into next spring-45¢ ea. and ex. lg.95¢ ea.

\*Polygala (6) a beautiful spreader for acid soil, evergreen foliage and pinkish-purple, fringed flowers with cream or whitish throats-75¢ ea.

Wild Oxalis \*(4) tiny plants with large white flecked purple flowers above evergreen Oxalis leaves, hardy outdoors-50¢ ea. 3-1.00, 10-2.50

\*Gold Thread (4) shiny and leathery evergreen leaves and white flowers come from the gold thread roots, a beauty for acid, moist soil-35¢ ea.

Ragwort (24) butter-yellow (or maybe oleo) flowers on tall stems and crinkly leaves- 45¢ ea. 3-1.00

*Rudbeckia* (60) large, single, yellow flowers on tall plants for shade or full sun, and any kind of soil will do-50¢ ea. 3-1.00

Shin-Leaf \*(8) *Pyrola*- wide round leaves remain green all winter, then in spring the Lily-of-the-Valley-like flowers will thrill you-45¢ ea.

One-Flowered *Pyrola* is *Moneses uniflora* (3) an evergreen leaved plant with a single flower, makes nice groups after a time-35¢ ea. 3-75¢

Solomon's Seal, *Polygonatum pubescens*, or Small Solomon's Seal -with alternate leaves and little bellflowers on axillary peduncles, then in fall dark-blue berries, for rich soil-35¢ ea. 3-85¢

Great Solomons' Seal, *P. commutatum*- this one grows to 48" tall, with large dark blue berries, and grows well in either rich or poor soil and in sun or shade-75¢ ea. 3-1.75

Star Flower(8) for rich woods soil and shade, with one slender stem to carry the whorl of leaves, and a more slender stem holds from one to several Star flowers of white-45¢ ea. 3-1.00

continued from page 4, wildflowers for shade  
 Trillium, Great White, also known as Trinity Flower; Wake Robin, one of the earliest and largest white flowers of spring, these on smooth, all green stems, 3 large leaves, 3 of everything, will grow in any good soil and part to full shade-45¢ ea. 3-1.10, 10-3.00 and 100-26.00

Twisted Stalk, Streptopus roseus, (12) the pink, spotted deep-pink bell-like flowers in leaf-axils are followed by red berries-35¢ Ea. 3-75¢

White Hearts; Dutchman's Breeches; Ear Drops; Maiden's Tears, are some of the common names of this plant, which refer to the flower only, are borne above and amongst ferny, soft foliage from 3 to 6 inches tall, which grow from bulbs or tubers in rich soil or in leaf-mould under hardwood trees where they come up in early spring, bloom, and ripen the seed before there is too much shade from the tree-leaves or shrubs, the two kinds are so much alike, but you can have them separate or mixed. Dicentra cucullaria, really the Dutchman's Breeches, with grain-like tubers in clusters-35¢ ea. 3-75¢, 10-1.60 and 100-12.00  
 Dicentra canadensis, Squirrel Corn, from single to double corn-like tubers, fragrant flowers-35¢ ea 3-75¢, 10-1.60 and 100-12.00

Water Cress, the edible salad plant for growing in wet, boggy or springy spots, or in rich soil in the ordinary garden, given part shade and ample moisture, you will have delicious salad-greens all summer. In the garden, give a winter mulch of salt hay or straw, and in water, wet bog & springs, it is evergreen and will give greens all winter, plant a few and save money on food, can also be raised for the market with good profits- 3-75¢, 10-1.75, 100-14.00 and 1000 for \$75.00

Winter Mint; Winter Green \*(5) evergreen, aromatic leaves, flowers and berries, the bright-red berries hang on throughout the year, for acid soil that is sandy, gravelly, or made so by adding acidifying material & sand. Give half-shade-75¢ ea. 3-1.75, 10-4.50

Princes' Pine, Pipsissewa- another lovely evergreen for soil like the Winter Mint, above, but this one has long, sharply-toothed leaves and from 2 to 8 pink flowers, grows to 6 inches tall-75¢ ea. 3-1.75

Bear Berry or Arctostaphylos Uva-ursi- this is another good evergreen trailing woody-stemmed plant or shrublet that makes large mats when planted in soil like the Winter Mint or Princes' Pine, for they are often found growing together, small flowers followed by red, rather dry-looking berries for the Bear's diet-1.25¢ ea. 3-3.00

Buck Bean, but not a Bean, for this one belongs to the Gentian Family, and it is Menyanthes trifoliata, in spring come the snow-white hairy flowers like large snowflakes, for wet or moist soil and shade-75¢ ea.

Smooth Scouring Rush- no leaves here, just the long green, black-banded stems up to  $\frac{1}{2}$ " thick, an odd looking plant for poor, sandy soil or for rich soil in shade or full sun, slowly spreads- 75¢ ea. 3-1.75

Dwarf Scouring Rush (5) Equisetum scirpoides is this one, in tufts, that make good pot and pan cleaners, as the sandy-like stems are used for this, for rich soil in woods or on shady stone bluffs-50¢ Ea. 3-1.00

Woods or Spring Beauty (6) in early spring from tubers spring forth the lovely little pink flowers that well deserve the name, with so many more flowers each spring-45¢ ea. 3-1.10, 10-2.75

Wild Leek (12) strong leek odor from bruised stems or leaves, umbels of white flowers followed by black seed- 35¢ ea. 3-75¢, 10-1.60

Wild Ginseng- this plant is very valuable for it's Dried Roots, which at this time bring \$18.00 per pound (March 1st, 1953) grows best under trees or lath shade in rich soil. If you have a woodlot or grove of trees or shrubs, plant it with Ginseng, and in a few years you will be amazed at the amount of money you can get out of the plant-2 year old seedlings-3-85¢, 10-2.25 and 100-20.00 or 1000 for 120.00

Matured, seed bearing Ginseng plants, 6 years old & over-1.00 ea. 3-2.50

WE PAY PARCEL POST CHARGES on all small parcels that can be shipped by parcel post, but all large parcels, shrubs and trees can be shipped by Railway Express only, the customer pays the charge and we give extra plants or larger ones for the charges on all Express shipments, so it is to your gain to ask us to ship by Express.

NO ORDER BLANK is enclosed, you may use any paper you wish, as that will serve the purpose and anyway, people often want and ask for certain information along with the order, and this is better done on ordinary stationary, then on an order blank. If you have any questions regarding our plants, do not hesitate to write us for this information.

#### HARDY WILD ORCHIDS FOR OUTDOORS

Lady Slipper, Pink (*Cypripedium acaule*) large "Slipper" flowers that are pink, veined purplish, on stout 12 to 16 inch stems, large oval leaves. Give half to full shade in moist, acid soil-1.00 ea. 3-2.50

Golden Lady Slipper (*C. pubescens*) (24) these are much taller than the pink ones, with leaves along the stems, and bright golden color, culture as for pink, but these are very easy to grow-1.00 ea. 3-2.50

Showy Lady Slipper (*C. Spectabile*) (30) this is, in some plants, pure white, others a shade of pink to near purple, colors vary in depth of shades, we do not separate them according to color. These love moist to even soggy soil when grown in only part shade, in dense shade, drier soil is best, but plenty of moisture must be given, easy-1.50 ea. 3-3.75

Purple Fringed Orchid (*Habenaria pycnodes*) (36) up to a 100 beautiful, fringed, light-purple orchid flowers on one tall stem, grows well in any garden soil if given plenty of water and just a little shade, this is the easiest and showiest of the hardy orchids-1.00 ea. 3-2.50, 10-7.50

Yellow Fringed Orchid (*H. ciliaris*) (24) similar to Purple Fringed orchid in form and habit of growth, but yellow colored-1.25 ea. 3-3.00

Grass Pink Orchid (*Calopogon pulchellus*) this one is of smaller form in both leaf and flower, and will stand much sun-1.00 ea. 3-2.50

Rattlesnake Orchid; Rattlesnake Plantain (9) the leaves are veined and netted white, and are the interesting part of this orchid-1.25 ea.

Showy Orchid (*Orchis spectabilis*) showy, though rather small purple or white and magenta flowers, for rich soil and shade-1.00 ea. 3-2.50

EVERGREEN TREES IN SMALLER SIZES, YOU CAN BUY MORE OF THESE FOR LESS. These smaller trees are much easier to get to grow, and then grow fast. Pinus Banksiana, Jack Pine-for rich or poor, sandy soil-12 to 20" tall 3-1.50, 10-3.75 larger, 30 to 45" tall 1.50 ea. 3-3.25, 10-8.00

Pinus albicaulis, White Bark Pine- can stand much cold, as it grows in the high mountains, a picturesque member of the White Pine Family, but is not used for timber purposes, although it does make nice shade and ornamental value- 6 to 8 inches, only 50¢ ea. 3-1.00, 10-2.75

Pinus jeffreyi - this one grows into large trees, with 3 needles in each cluster, the cones are from 5 to 10 inches long- 6 to 8" 3-1.25

Pinus flexilis, Limber Pine-this one grows in the Rocky Mts. from Canada into Mexico, has 5 needles in cluster, cones 3-6" long, yellowish-brown with very large seeds from  $\frac{1}{4}$  to  $\frac{1}{2}$ " long-8 to 10" tall, 3-1.50

Pinus rigensis, Scotch Pine, a fast growing ornamental-16 to 20", 1.00 each, 3 for 2.50 small size, 8-12" 3-1.00

Mugho pine- for landscape and lawn, along driveways, ect. 10-12" 1.00ea.

American Red Pine or Norway Pine-a fast growing and valuable tree as well as ornamental- 24" tall, 1.00 ea. 3-2.50, 36" tall, 1.75 ea.

Black Spruce-will grow even in wet bogs or in poor, dry soil, slow growing-12" tall 1.00 ea. 3-2.50, large size 4 ft. tall 3.50 ea. 5-6' 4.50ea. small evergreens, continued on page seven

small evergreens, continued from page six

American Yew- a spreading low growing evergreen with red berries and dark green foliage, for shade or part shade-12 inch, 1.45 ea. 3-3.50

Colorado Blue Spruce- a slow growing ornamental which is very beautiful and hardy- 6" 50¢ ea. 3-1.25 10" 75¢ ea. 3-1.75

White Spruce- a fast growing tree, here there is much color variation in the needles, from pale-green to dark and even bluish 4-5' 3.95 ea.

Canadian Hemlock- for large, dense masses of evergreen in the open, as this tree grows very bushy in open ground where there is much sun, but loves to grow in shade where it grows into large trees and is a valuable timber tree- 12" 50¢ ea. 3-1.25, 20" 1.00 ea. 30 to 36" tall, 2.50 ea.

Balsam Fir- an ornamental fir that grows fast, is much used for Xmas trees, grows fast and is very hardy, will grow in most any kind of soil 18" 1.00 ea. 3-2.50, larger size 24-30" 1.75 ea. 36-48" 3.00 ea. 2-5.00

Deciduous trees that shed leaves  
Bitternut Hickory- 12" 75¢ ea. 3-1.75  
White Ash- 8" 25¢ ea. 5-95¢, 10-1.25  
larger size, 24-36" 1.00 ea. 3-2.50  
Sugar Maple- 6" 25¢ ea. 5-75¢, 10-1.00  
larger size 24"-36", 1.00 ea. 3-2.50  
White or Paper Birch- 24"-30" 75¢ ea.  
Beechnut- 24" 85¢ ea. 3-2.00, 36", 1.00  
Elm- 24" 85¢ ea. 3-2.00 36", 1.25 ea.  
Red Oak- 12" 50¢ ea. 3-1.25, 30", 1.00

Vines & climbers, extra large  
Matrimony vine- red berries follow  
purple flowers- 95¢ ea. 3-2.50  
Sulvant's Honeysuckle- orange berries  
after orange flowers- 95¢ ea.  
Virgin's Bower- lacy flowers and seeds- 85¢ ea. 3-1.85 6-3.00  
Bittersweet- orange wax-like berries- 95¢ ea. 3-2.50  
Virginia Creeper- good climber and  
climber- 85¢ ea. 3-1.85  
Scarlet Trumpet Honeysuckle- showy  
flowers, red berries- 95¢ ea. 3-2.50  
Hall's Honeysuckle- orange flowers  
and berries- 65¢ ea. 3-1.50  
Periwinkle; Vinca minor- for shade  
and a good ground cover with blue  
flowers- 55¢ ea. 3-1.00, 10-1.95

#### Tamarack for lawns

Tamarack trees are very hardy, easy to grow in any kind of soil, and can stand wet or dry ground. The feathery foliage is very beautiful, in fall it turns bright gold color, and when the leaves drop, they need not be raked up, they are so fine. 3ft. 1.50 ea. 3-3.50, larger size 5-6ft. 3.00 ea. 8-10ft. 6.50 ea.

BELOW ARE A FEW EASY TO GROW  
SHRUBS AND SMALL TREES FOR  
SPRING OR FALL PLANTING.

Juneberry- loaded with flowers in spring, then red to purple fruit that is good to eat, and loved by the birds- 95¢ ea. 3-2.25

Comptonia Peregrina or Sweet Fern- fragrant plants that do best in poor sandy soil, on banks, hillsides and slopes and can stand much dryness the leaves are fern-like, grows to 30" tall- 1.00 ea. 3-2.50, 6-4.25

Cornus Siberica or Siberian dogwood- the branches are bright red all seasons, grows 4' high- 1.25 ea. 3-3.25

Cornus lutea, Yellow Twig- pretty yellow branches for contrast among other shrubs, or for borders, ect.- 1.25 ea. 3-3.25

Cornus rugosa, Roundleaf Dogwood- greenish-yellow to redish brown stems large clusters of cream flowers followed by black berries- 1.00 ea.

Cornus Stolonifera, Red Osier- makes nice clumps of red stems- 85¢ ea.

PLEASE READ FOR YOUR INFORMATION

We can ship house plants at all times when the weather permits, but we  
 will not ship them when the weather is too hot, as this rots them in  
 the packages, or when the weather is too cold so there is danger from  
 freezing the plants, and such case, we will hold the order, and ship  
 at the first opportunity. For your own profit, it is best if you send  
 us 15¢ extra with your order for Special Handling by Parcel Post of  
 your plants, this way, they go on to destination without stopping along  
 the way, and you get them in good condition. This applies to all plant  
 orders going by Parcel Post. Wildflowers & Perennials can in most cases  
 be shipped and planted in both spring and fall, cactus at any time.  
 PAVEK NURSERY WHITE LAKE, WIS.

# SPECIAL SHEET LIST # 24

ON BOTH SIDES OF THIS SHEET ARE SPECIALS, AND ITEMS OF WHICH WE HAVE ONLY A FEW, AND OTHER PLANTS NOT LISTED IN OUR REGULAR LISTS OR CATALOG BUT FOR WHICH WE HAD MANY INQUIRIES, SO PLEASE READ IT OVER CAREFULLY.

We send planting directions with each kind of plant, to make planting easy for you, and we pay Parcel Post charges on all items on this sheet. All the plants are grown here at our nursery and are hardy.

NUMERALS IN PARENTHESES, AS (8) ect. indicate height of the matured plants, but will grow lower in poor soil and taller in rich.
